

KENTUCKY EASTERN

The excitement builds as highways turn into curvy county roads on your way to Premier Outfitters in the Bluegrass State. Each turn gives you amazing views of lush green wheat fields bordered by hardwoods and beautiful red tobacco barns. You turn onto the gravel driveway taking you to camp where Mark and his team of guides are waiting to put you on long beards and show you some Kentucky hospitality.

Hunters rose early on day one and after a quick breakfast everyone was headed to their hunting spots. Success didn't take long when mid-morning the youngest hunter in the group proudly came back with a beaming smile and an impressive tom.

From that first morning till the last day of the hunt our hunters continued to work hard to fill their tags. From hunting blinds to the shoot and scoot method our guests came back with some amazing hunting stories.

The food provided was phenomenal! You had a light breakfast in the morning, but upon returning from the early hunt you were treated to a delicious brunch comprised of biscuits and gravy, eggs, pancakes, and all the bacon you could eat. For dinner we ate outside while enjoying the fire pit and swapping stories of the day's adventures.

We can't thank Premier Outfitters and their team enough for the great time had by our group! If you have ever wanted to check off an eastern turkey from your list, this is the adventure to do it on.
