Ammunition containing propellant that does not properly ignite and burn may result in a bullet remaining in the barrel (i.e., a bullet-in-bore obstruction). Firing a subsequent bullet into the bore obstruction could cause firearm damage, rendering the firearm inoperable and subjecting the shooter and bystanders to a risk of serious personal injury.

DO NOT USE WINCHESTER® 9MM LUGER 115 FMJ / JHP OF THE ABOVE SYMBOLS THAT HAS ANY OF THE ABOVE LOT NUMBERS. The ammunition Lot Number is stamped on the cartons of the Symbols involved as indicated here:
